

I use to have hair down to my waist and now I don't because every since I was a little girl they and I have used the wrong hair products such Royal Crown and the products they introduced on soul train and it wasn't the right kind of products to use on my type hair. You see I am mixed hair black, Indian and white also. It is hard to get right hair products to use for my type of hair even though my skin type looks dark, but my hair doesn't compare to my type of hair, but your product does, and I also know that it will take a while for my hair to get use to with a great product that really works really well for my type of hair. Thank you so very much for the care you take in about my hair and people like me. So thank you again and keep up the good work that you do so very well.

P.S. I found out about your products in a magazine and I decided to use. I am so very glad I did, & like said before keep up the good work that you are very good. I know it will take a while for my hair and scalp to really get healthy again and it will with your all natural, chemical free products

My very best thanks to you
Yours truly

Kathleen &
