Dear, people at wild growth

I had to do my Testimonial this way because my pen ran out of ink, and I really wanted you to be able to read what I have to say about the hair oil. I been using wild growth since June 7, 2007, and I can see and feel the deferent's in my hair growth. thickness, length, and the breakage has almost stop I don't have a comb full of hair when I comb my hair now . I always had short hair and been having trouble with trying to get it to grow for years. Every time it would grow it would fall back out again and it 's been doing that for over 20 years now I tried everything from super grow, perms and hair grease and oils and nothing work. When I saw this oil in a magazine I thought they must be joking that oil can't help me. but then something told me to give it a try and I did I got two bottles and guess what in just that short time my hair came to life and is now growing and not falling out all over the place. This is truly a God send for people who dream of having longer hair for now on I will be using nothing but wild growth on my hair good byeee perms.

Sincerely, yours
